The Premier Storytelling Platform For Research

Now Powered By AI

Structure of an AI-generated Story page on Kudos

1. Simplified, shorter version of the original title
2. Plain language summary of what the research is about and why it is important
3. "Read article" links go to the version of record, typically on the publisher website
4. Featured image – authors can choose from our stock library
5. Authors have access to back-end tools where they can edit the text generated by the AI
6. Summary includes "key takeaways"
7. Authors get to add their own comment or quote
8. Authors can upload an infographic, visual abstract or other image of or from the research
9. "Read article" links go to the version of record, typically on the publisher website
10. Authors can add links to other related resources like videos or code
